

Declaration – Serious Average Prevention Policy

Kavalierglass , Co. Ltd., Sázava

In the effort to reduce the risks leading to serious averages and in case of averages arisen to limit their health and environmental effects the Board of Directors and management of Kavalierglass , Co. Ltd. have adopted the following

PRINCIPLES OF SERIOUS AVERAGE PREVENTION POLICY

- To create conditions of an efficient system development by specifying duties and responsibilities of employees involved in limitation of risks of serious averages on all management levels.
- To ensure that actions preventing the possibility of an emergency situation occurrence are taken. To focus, at the same time, on safe handling of dangerous chemical compounds and preparations and agents in storage and usage, on a good technical condition of storage and technological structures and equipment, on precautionary fire protection measures in the surroundings of buildings, on safeguarding the complex against intrusion of unauthorized persons.
- To take actions leading to mitigation of consequences of averages and limitation of spreading of an average already arisen to the least possible extent and to an efficient protection of the precinct.
- To introduce tools for tracking the fulfilment of Serious Average Prevention Programme, inspection and audit.
